# The Caddy Life and Caddy Maxi Life

**Caddy® Life puts the fun back into life.**

Life is always busy. But with Caddy Life, it can be fun. With zippy new engines, intelligent use of space, superb performance and brilliant handling, Caddy Life is the smart people mover that is genuinely enjoyable to drive.

Caddy Life has been designed to match your busy urban lifestyle. Monday to Friday, you've got a myriad of work commitments and need a vehicle that is agile, comfortable, versatile and efficient. It has to be easy to get around the city

and easy to park too. After hours, there are kids to collect from band practice and sport – “Hey Mum, can we give my mates a lift home too?” Enroute, you'll need to duck in to pick up a week's worth of groceries that fits alongside the sport bags and guitar cases in the boot.

Caddy Life takes all this into its stride and makes your working week a joy.

Typically though, life on the weekends gets even busier. And so too does Caddy

Life. Saturday morning sport across town? Simple. Trips to the beach for the whole family? Easy. Golf on Sunday afternoon? Flip a seat up and slip the clubs in – no problem. Then back home past the petrol station (no need to stop because the needle on the petrol gauge has hardly moved all week), up the tight laneway and back into the garage.

Slide the big doors of Caddy Life open. Life spills out. “What's for dinner, Mum?” If only Caddy Life could cook too.

Overseas model shown.

# More than just a pretty new face.

The latest Caddy Life has a stylish new face that matches the Volkswagen DNA thanks to new headlights and a redesigned bumper and grille which are paired with a new bonnet and front guards. Overall, the new Caddy Life has a more refined, more sophisticated front end. But it's much more than a pretty new face. Caddy Life now sports new instrumentation, a new steering wheel, new audio/navigation system and new engine and transmission options that achieve impressive fuel consumption and environmental figures.

As you would expect, the build quality and attention to detail is typically

Volkswagen. And when you add the impressive list of safety and security features in Caddy Life, it's a compact people mover that makes tremendous sense. Passive safety features include driver and front passenger airbags with the option of side head and thorax airbags. Caddy also features ESP (Electronic Stability Program) and TCS (Traction Control System) as standard, which keep you safe when the road conditions aren't. You also benefit from ABS (Anti-lock Braking System), EBA (Electronic Brake Assist) and EBD (Electronic Brake Distribution) – absolute essentials for protecting life on the road.

- 01 Electronic Brakeforce Distribution (EBD) prevents lock-up of the rear wheels when the vehicle weight is transferred to the front wheels under heavy braking.
- 02 The seat belt warning reminds the driver that their seat belt is not fastened.

- 03 The Electronic Stabilisation Programme (ESP), including hill holder, prevents the vehicle from swerving in critical driving conditions.
- 04 The Anti-lock Braking System (ABS) prevents wheels from locking up and improves manoeuvrability.

- 05 The Brake Assist system recognises the speed at which the brake pedal is pushed. Under reflex or emergency braking, the system senses the urgent need and applies full brake pressure more rapidly.

Overseas model shown. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available.

## You can fit more life into Caddy Life.

This has to be the most versatile compact people mover in the world. Before your very eyes, the five seat Caddy Life (with seven seats an option) can transform into a variety of vehicles depending on what's required.

The three seats in the back are extremely comfortable and aren't just designed for kids. Even the tallest of adults will feel right at home thanks to generous head and leg room. These rear seats are foldable and can even be removed entirely (a straightforward operation thanks to the dual sliding door setup that provides easy access to the cabin).

With all seats out, there's an amazing 3.2m<sup>3</sup> back there for larger luggage and all the bulky items that add fun to your life – surfboards, bicycles, golf clubs, you name it. Even with all the seats in place, there's plenty of room for luggage, and the multitude of handy storage compartments within the cabin can fit all sorts of odds and ends.

But it's the discipline of people moving where Caddy Life excels. Thanks to brilliant German design, meticulous construction and the long list of safety inclusions, Caddy Life ensures the people you're moving around are looked after in every respect.

Seven seats.

Middle seats folded. Last row out.

Middle seats rolled forward.  
Last row out.

All rear seats removed.

## Caddy Maxi Life. The more the merrier.

Life has a habit of growing. It could be a growing family, it could be a growing social life or quite possibly a mixture of both. Hey, there's nothing like having a little more fun, is there?

Thankfully, Caddy Maxi Life is there to cater for more life. Caddy Maxi Life is almost half a metre longer than Caddy Life, adding even more room to comfortably include a third row of seats and turning Caddy Maxi Life into the smartest seven-seat people mover around.

Thanks to ingenious German design, the rear seating configuration can be altered

to match whatever life throws at it. Need to get a troupe of six kids to the party? Not a problem. You can even take a troupe of six happy adults to the party if you want.

With generous head and leg room, passenger size is not an issue. Then there's the option of taking out the back row of seats and suddenly you've got space for kid's bikes, some director's chairs, a foldup table, eskies, hampers and a portable barbecue so you can take the party with you! And if you decide to take out all the rear seats, you've probably got enough room to have the **whole** party in the back.

## 4MOTION

### Life, recreated.

Caddy Maxi Life doesn't just put more fun into life, it allows you to get more out of life too. There's plenty of space to take everything you need for a long road trip to a weekend escape. And if you're planning on something a little more adventurous on the road less travelled, there's always the option of 4MOTION – Volkswagen's clever all-wheel drive system that provides your Caddy with extra grip in standard off-road situations.

The tractive force of the Caddy 4MOTION is distributed by Volkswagen's ingeniously designed, electronically regulated 4th generation Haldex coupling system. As soon as the system detects any differences in the speeds of rotation between the front and rear axles, two annular piston pumps are activated which build up pressure in the multi-plate Haldex system – effectively "coupling" the two axles to each other. The coupling provides an infinitely variable torque transfer between the front and rear axles, depending on the degree of slip in the rear or the front. Of course, you won't be aware of the lightning quick adjustments being made by the system beneath you. All you will feel is sure-footed handling.

When you arrive at your destination, it's easy to unload the mountain bikes, golf clubs, surfboards, snowboards, fishing gear, or whatever it is that you love doing, and jump into your favourite recreation. Although the hard part comes when you have to force yourself to stop driving and start recreating! Caddy Maxi Life is almost too much fun to drive.

# Amazing new engines.

New engines sit beneath the stylish new bonnet of both Caddy Life and Caddy Maxi Life delivering new levels of performance, sharper fuel efficiencies and kinder environmental outcomes.

The new TDI250 (common-rail) turbo diesel is available with either a standard

five-speed manual or a seven-speed DSG transmission. This engine develops 250Nm of torque and achieves staggering fuel efficiencies of 5.8L/100km, emitting from just 152g/km of CO<sub>2</sub>.

Since it develops more torque, the TDI320 is offered with a six-speed DSG as standard. The engine itself generates

320Nm of torque and still achieves incredible fuel efficiencies of just 6.5L/100km while emitting 171g/km of CO<sub>2</sub> emissions.

# Paint colours.

The bodywork is first galvanised to give your Volkswagen vehicle optimum protection against mechanical and chemical influences. Only then is the paint applied in several layers and left to harden. The result is a scratch-proof, hard finish for the top coat – so that you always leave a brilliant impression with your friends.

\*Available at extra charge. The illustrations on these pages can only be regarded as a general guide as the printing process cannot render the colours with absolute accuracy. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras. The seat pattern on the left shows the centre panel, and the seat pattern on the right shows the outer panel.

# Accessories.

**Roof bars and ski & snowboard holder.** This handy setup is ideal for secure, easy carriage of snow equipment. Simply unlock and flip open, and once the gear is in place, clip it down and lock it up safely.

**Rear cargo net.** Life is full of small items to carry here and there. Not to mention shopping trips. Secure it all with this handy cargo net that lashes down easily to the boot eyelets. Roof bars and ski & snowboard holder.

**Rear molded boot mat.** This rubber mat is shaped to the back of your Caddy Life for an ideal fit. It is easily removed for cleaning and the non-slip surface prevents items slipping around.

**Door sill protective strip.** A sturdy strip that protects the paint on the door sill from scuffs and scratches – a great idea if you're in and out of your Caddy Life regularly.

**Rubber floor mats.** These rugged mats with Caddy motif are available for both the passenger and drivers side and do an excellent job of protecting the floor from wear and tear.

**Textile floor mats.** These comfortable, hard wearing carpet liners with Caddy motif add an elegant touch to the cabin.

**Bluetooth Phone Kit.** Negotiating around busy roads and taking calls on the fly is now much easier thanks to this handy Bluetooth phone kit. Pairs quickly with all major phones and installs neatly on the dash.

**MEDIA-IN interface.** Allows you to connect external audio sources including USB, USB mini, 3.5mm jack and iPod. Plays your favourite tracks through the vehicles audio system.

**Basic carrier with roof box.** This practical roof box is built for all life can throw at it. Quick-release fasteners make it very easy to load up and the 3-point central locking keeps items safe and secure. Available in three sizes – 310, 340 or 460 litres.

# Owning a Volkswagen.

## **Volkswagen New Vehicle Warranty**

Volkswagen Caddy Life and Caddy Maxi Life are covered by a 3-year/unlimited kilometre manufacturer's warranty, which includes Volkswagen Assist (24hr roadside assistance). Caddy is also covered by a 3-year paintwork and 12-year anti-corrosion perforation warranty.

## **Volkswagen Assist**

### **24 hour roadside assistance**

As a valued customer, you can be assured that, wherever you travel within Australia, you will have access to roadside assistance, 24 hours a day, 365 days a year. This is complimentary for the duration of the vehicle's original Volkswagen warranty period. You will receive help in the event of a breakdown

or accident and, if required, your vehicle will be mobilised or transported to an Authorised Volkswagen Repair Centre.

## **Volkswagen Extended Warranty**

Why not continue the confidence of a Volkswagen Warranty by purchasing a Volkswagen Extended Warranty? For further details on this option, please contact your local Volkswagen Dealer.

## **Volkswagen Service**

Your Authorised Volkswagen Service Centre is part of Volkswagen's global Quality Management System, ensuring all dealers are certified to ISO 9001:2000 – an internationally recognised Quality Standard. Authorised Volkswagen Service Centres have factory trained technicians equipped with the very latest diagnostic

equipment, specialist tooling and Volkswagen Genuine Parts. An Authorised Volkswagen Service Centre undertakes work in accordance with factory specified guidelines and maintenance schedules.

## **Volkswagen Genuine Parts®**

Volkswagen Genuine Parts® are designed for your vehicle and approved by Volkswagen, with particular regard to safety. The workmanship, dimensional accuracy and materials used in these parts comply with factory specifications. To ensure safety and reliability, Volkswagen recommends the use of Volkswagen Genuine Parts®. Volkswagen Authorised Dealers offer a 2-year warranty on Genuine Parts from the date of purchase.

# Environment.

At Volkswagen, we don't see the word 'Environment' as a barrier. We believe that sound environmental sustainability offers the opportunity to develop long-term innovations, including new approaches, efficient technologies and ground-breaking products. An internal Environment Committee was established in order to manage our business activities from an environmental point of view and to find solutions to reduce our environmental impact.

As a first and important step, Volkswagen Group Australia have developed a Carbon Management Strategy helping us to identify and manage our carbon emissions from our business activities.

This has led to a Carbon Management Program throughout the organisation, empowered to recommend changes that mean real emissions reductions. From reduced electricity consumption to optimised business flights, we're making

changes to reduce our carbon footprint. On a local level, we have also undertaken a number of initiatives to reduce the environmental impact of our business processes, from office recycling to using waterless urinals in bathrooms. Energy usage is being reduced through lights controlled by motion sensors in toilets, kitchens and meeting rooms.

But there's no question that the area in which we can contribute most to environmental sustainability is with our vehicles. Our TSI twin or single-charged engines combine innovative and world leading direct injection petrol technology with turbocharging and are extremely fuel efficient with reduced CO<sub>2</sub> emissions. Our TDI diesel engines consume less fuel and emit less exhaust fumes offering high torque and performance, while our diesel particulate filters extract soot from the exhaust fumes. Numerous engines already fulfill the very stringent Euro 5 norm.

Our dual-clutch DSG gearbox provides the comfort of conventional automatic transmission and the dynamic drive of a manual transmission. It has significantly lower fuel consumption in comparison with a conventional automatic transmission with torque conversion. The newest member of our DSG family is the 7 gear DSG transmission for front transverse mounting, and is the first dual-clutch gearbox with a 'dry' double clutch, achieving exciting new fuel consumption efficiencies.

# General Information.

Volkswagen is distributed by Volkswagen Group Australia Pty Ltd, The Lakes Business Park, 6 Lord St, Botany, NSW 2019. ABN 14 093 117 876. Specifications are as planned at December 2010 for model year 2010/2011 and are subject to change without notice or obligation. Cars and accessories are shown for illustrative purposes only and may not depict Australian specifications. Fuel consumption figures according to Australian Design Rules (ADR) 81/02. All Volkswagen approved parts and accessories are warranted for 2 years/unlimited kilometres. All warranties implied by legislation or otherwise are excluded to the maximum extent permitted by law. The liability of Volkswagen shall, subject to the law, be limited at Volkswagen's discretion: 1. In the case of the goods, the repair or the cost of repair, or the replacement or the cost of replacement; and 2. In the case of services, the re-supply of the services or the cost of re-supply of the services.
