31 General information

Long live the icon.

Splitty. Microbus. Kombi. Rye Bread. Hippie Van. Kleinbus. Westy. Bully. Barn Door. Breadloaf. Volksybus. Bay Window.

Over the last sixty years or so, the Volkswagen People Mover has had all sorts of nicknames from all sorts of cultures across the planet. Call it whatever you want, but there's little doubt that it has been loved the world over.

Movie star, generational symbol, peace icon and surf paragon. The Volkswagen People Mover has enriched the history of motoring by tapping into the psyche of millions of people. It conjures a spectrum of intense emotions and memories. It speaks of adventure, freedom, romance and shared family experiences. And the strength of the connection is as potent today as it has been at any time in Volkswagen's history.

The latest range of Volkswagen People Movers unites form and function as it always has. But these days, we need more. We need engines that perform brilliantly, are kinder to the environment and achieve superior fuel efficiencies. We need safety. We need comfort and clever storage space. And we need extras and options that adapt to our changing lifestyles.

Today's Volkswagen People Movers are modern icons that still carry Australian families on their quest for adventure and shared experiences. But they also cross over into the corporate world thanks to brilliant functionality, high end design, unmatched comfort and a badge on the front that is a universally recognised symbol of quality and reliability.

Caravelle.

International model pictured with optional alloy wheels and colour coded bumpers.

When it comes to moving people and doing it in style, not much compares to Volkswagen Caravelle. With no less than 9 seats accessible through two huge sliding doors and generous luggage space in the rear, Caravelle can do it all.

Caravelle could be Mum's Taxi doing shopping trips and school drop offs. Or Caravelle could equally become a luxurious shuttle for an upmarket hotel transferring clients to city locations or the airport.

Either way, Caravelle has the style, reliability and versatility to cope with any task.

International model pictured with optional alloy wheels, colour coded bumpers and park distance control.

Just because there are 9 people on board doesn't mean that space has been compromised. Far from it. Passenger comfort in the rear is paramount with quality seats, generous legroom and rear air conditioning control panels. The versatile seat configuration in the passenger cabin allows for a variety of combinations with the seven seat structure. And you can take one or all of the rows out to create a huge flat space giving you even more room for larger luggage items. As you would expect, safety is critical. Caravelle includes a suite of active and passive safety features to protect its occupants including Electronic Stabilisation Programme (ESP), Anti-lock Braking System (ABS) and Electronic Differential Lock (EDL) as standard.

Up front, the Caravelle's advanced TDI340 engine provides 2,000kg towing capacity with torque of up to 340Nm, and outstanding fuel efficiency of just 8.2L/100km. This responsive engine is paired to a smooth 7-speed DSG transmission. Coupled with a truly ergonomic driving environment, it all adds up to make getting around urban environments or the open road a pleasure.

Perfect for larger families looking for versatility and safety. Perfect for shuttle bus operators and hotels looking for quality and performance. Caravelle fits the bill in so many ways.

Multivan.

Volkswagen Multivan is a triumph of design. These elegant people movers are the product of considerable fine tuning over several decades to yield an intelligent vehicle that moves people and their luggage in superior comfort.

With a svelte front end and a sporty, agile profile, the Multivan is more than a pretty

face. It's also a pretty space inside with a luxurious passenger interior that takes full advantage of smart German thinking. The Multivan cabin offers a wealth of versatile space for seven people with the climate controlled by a 3-zone climatronic air conditioning unit. In the rear, the second row seats would be right at home in your lounge room. Spin them

through 180 degrees and you effectively create a meeting room like no other. We have catered for comfort in our front seats with adjustable armrests and lumbar support and the option of a practical, beautifully designed multifunctional table (standard in Highline). The table not only pivots to suit the needs of passengers, it also

contains several cup-holders and includes handy storage compartments.

Up front, the driver enjoys brilliant handling from highly responsive, efficient engines and transmissions. It's the ultimate control centre – ergonomically designed with a wide range of state-of-the-art instrumentation. Safety features

span the vehicle including driver and front passenger side and curtain airbags, curtain airbags for the rear, Anti-lock Brakes (ABS), Anti-Slip Regulation (ASR), Electronic Stabilisation Programme (ESP) and much more.

Multivan. It's the people mover that has moved up in the world.

Multivan Comfortline.

Multivan Comfortline lives up to its name. The versatile cabin provides for a myriad of combinations depending on how many people are on board and what you're carrying. The secret to this versatility is the ingenious in-floor rail system that allows you to configure the rear of the Multivan Comfortline to suit your needs. The rails allow for endless seat adjustability – it's a very straightforward system to use and so handy when you need to make adjustments on the fly.

Picking up some friends from the airport? Simple – and there's plenty of space for luggage and duty free too. Need to get a few extra mates home from a party? No problem. Heading off on holiday and packing extra gear for the beach? Move a couple of seats around and there's plenty of space to stow tents, eskies and surfcraft. On board comfort is well catered for from the three-zone climate control air conditioning, leather multifunction steering wheel, window blinds, iPod®* attachment, eight

speaker audio system right down to the variety of trays and cup holders to keep everything stowed away and handy.

And Multivan Comfortline is perfect for getting families around town. There is a flexible seating arrangement keeping everyone happy thanks to the centre walk through between the driver and passenger seats (sure beats standing in the rain) giving you quick access to the second row and third row in the back.

* iPod® and iPhone® are registered trademarks of Apple Inc.

Multivan Highline.

Welcome to the top end of the Volkswagen People Mover range. Multivan Highline combines luxurious appointments with practicality and versatility that is the hallmark of the whole range.

Inside, you will ease into the comfortable leather captains chairs which swivel 180 degrees in the second row to create a mobile lounge room. Slip the multifunction table along the interior rail system and you've got the perfect social and business environment. Entry to this interior is even easier with Multivan Highline thanks to smart button-operated (electric) sliding rear doors. Overhead in the rear cabin, a stylish bank of lights and air vents provide fresh air and services to passengers on demand.

The Multivan Highline is a true performance machine which draws on a wonderfully efficient TDI engine offering 132kW of power or the TSI engine with 150kW of power. Both combine with the smooth 7-speed DSG transmission that makes driving Multivan Highline an absolute pleasure.

And if you need some extra grip for difficult on-road conditions or towing, there's always the option of Volkswagen's ingenious 4MOTION DSG system.

Luxury, practicality, standout design and brilliant performance. Multivan Highline has it all.

Safety

An important attribute of any Volkswagen people mover is safety – as you would expect given that the most important cargo is people. If you were to strip away the sleek panels, the instrumentation, and the beautifully finished interior, you would see the rigid construction that lies just beneath the surface. Meticulous German engineering gives this framework incredible strength to shield occupants. With safety equipment such as multiple airbags, ABS with EDL, ASR, EBD and ESP with Brake Assist, the environment in the people mover range is not just comfortable – it's also protective. There are levels of safety for those beyond the cabin – for instance the standard inclusion of Rear View Camera on Multivan Highline, which provides the driver with a clear understanding of what, and who, is directly behind the vehicle for safe reversing. And subtle lighting ideas and sensing technologies add to the passive systems of the range – for instance, turning lights can help to illuminate blind curves and intersections, and optional features like “Side Assist” make changing lanes in heavy traffic a breeze. No stone is left unturned to make our range of people movers the benchmark in safety.

EBD

Electronic Brakeforce Distribution (EBD) prevents lock-up of the rear wheels when the vehicle weight is transferred to the front wheels under heavy braking.

The seat belt warning reminds the driver that seat belts are not fastened.

The **Electronic Stabilisation Programme (ESP)**, including hill holder, helps prevent the vehicle from swerving in critical driving conditions.

The **Anti-lock Braking System (ABS)** prevents wheels from locking up and improves manoeuvrability.

The **Brake Assist system** recognises the speed at which the brake pedal is pushed. Under reflex or emergency braking, the system senses the urgent need and applies full brake pressure more rapidly.

4MOTION

The addition of 4MOTION will provide your Volkswagen people mover with sure footed agility in the most trying of surface conditions and can take you further off the beaten track. 4MOTION is as simple as it is effective – at its heart is a unique Haldex system that anticipates slip, rather than reacting to it once the tyres lose traction. The system draws data from a range of sensory inputs on the running gear. This data is delivered immediately into an electronically controlled clutch which constantly calculates load requirements and pushes drive between the front and rear wheels with a wide range of variability according to surface conditions and driving forces. 4MOTION excels on bitumen roads and comes into its own on open terrain, providing the tangible benefits of all-wheel drive.

Wading depth: up to 300mm. With the Multivan, you can cross deep puddles and shallow water with the greatest of ease and safety. Measured at a full load and at a maximum speed of 30km/h.

Departure angle: 17°, approach angle: 21°. Short inclines are no problem for the Multivan. Thanks to the wheelbase, the bumpers don't make contact with the ground even at an approach angle of 21°. Measured with standard equipment and full load.

Ramp angle: 14°. The greater the ground clearance, the more freedom you'll have on your adventures. The Multivan can even cope with crests with a ramp angle of 14° without difficulty. Measured with standard equipment and full load.

Hill-climbing ability: 37°. The Multivan can master tarmac passes, medium slopes and steep inclines with ease up to a slope of 37° with the 132kW engine* and a vehicle weight of 3,000kg.

* Figures may vary depending on the equipment line and engine type. Please note that these are statically calculated figures. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras applicable.

Accessories

Life is about choices. And choices are what makes Volkswagen people movers so essential for many lives. Quite apart from the functionality, versatility, engineering, clever design and driving pleasure of the Volkswagen people mover range, there is a range of useful accessories that add considerable value to your people mover and make your life all the more enjoyable.

Roof bar set and kayak holder. The roof bar set with kayak holder makes transporting a kayak simpler than ever. Straps wrap over both ends to secure the kayak in place on the roof bars. Easy!

Roof bar set and ski & snowboard holder. The roof bar set with ski and snowboard holder is perfect for transporting your gear. The holder locks both skis and snowboards securely in place, so you are free to fill up your boot with everything else you need for the trip.

Luggage net. Life is full of small items to carry here and there. Not to mention longer trips away. Secure it all with this useful luggage net that hooks easily onto the boot eyelets.

RNS510 Satellite navigation system is Volkswagen's state-of-the-art innovation, with a touch sensitive display for easy operation. High-res 16:9 screen and high performance processor, this system will calculate your travel routes at incredible speeds.

Boot mat. This luxurious carpet boot mat offers excellent protection from dirt, sand, dust and wear and tear. It fits neatly inside the boot and can be removed quickly for easy cleaning.

Bluetooth™ touch phone kit.

Negotiating around busy roads and taking calls on the fly is now much easier thanks to this handy Bluetooth™ touch phone kit. It pairs quickly with all major phones and installs neatly on the dash.

Bluetooth™

Rear boot trim – chrome. Shaped to fit the curvature of the boot, this rear boot trim comes in chrome and complements the appearance of the vehicle perfectly.

Overseas model shown.

Slimline weather shields. These slimline weather shields complement the shape of your windows and can be fitted to driver and passenger doors, allowing you to have the windows part way down when it rains.

Boot sill protector. This boot sill protector is shaped to fit the curvature of the boot to shield against scratches during standard loading and unloading.

Overseas model shown.

Textile floor mats. These textile floor mats look great with the interior and do an excellent job of protecting your floor from dirt, mud, dust and wear and tear.

Towbar. For times when you need to carry more or do want to tow a trailer, these genuine towbars have a 2,000kg braked towing capacity and 750kg unbraked with a 100kg downball weight.

17" Suez alloy wheel. This alloy wheel will give your People Mover that extra class.

18" Dakar alloy wheel – silver. This alloy wheel is designed to be robust and elegant.

18" Dakar alloy wheel – black. This alloy wheel will complement the sleek design of your People Mover.

Images are for illustration purposes only. Kayak not available for purchase from Volkswagen or its dealers. Overseas specification vehicles are shown. The Bluetooth™ word mark is owned by The Bluetooth SIG, Inc. Not all devices will be compatible and functionality will vary depending on the device.

Amazing engines

The Volkswagen range of people movers is powered by some brilliantly designed engines.

The latest generation of TDI engines have an excellent reputation for their high torque and superior levels of efficiency. These engines have been specially designed with the driver and the environment in mind and boast improved fuel consumption and CO₂ emissions. The experience behind the wheel is smooth and pleasurable with

seamless gear changes thanks to the silky 7-speed DSG transmission. And for those looking at additional grip off the road, there's always the option of 4MOTION all-wheel drive.

Caravelle models feature a turbocharged 2.0 litre TDI340 power train generating up to 340Nm of torque – that's plenty of power to move lots of people and luggage. This Euro 5 compliant engine is available in Multivan, but Multivan customers also have the choice of stepping up to a high

performance TDI400 twin turbocharged engine. If you're looking for extra power but don't wish to sacrifice fuel efficiencies along the way, then this is one incredible engine to have under the bonnet of your Multivan.

Volkswagen's TSI350 continues to break new ground with TSI technology. This engine, coupled with seven-speed DSG transmission delivers an amazing 150kW of power and a healthy 350Nm of torque. The TSI350 is available in Multivan Comfortline and Highline.

Owning a Volkswagen

Volkswagen New Vehicle Warranty

Volkswagen Caravelle and Multivan are covered by a 3-year/unlimited kilometre manufacturer's warranty, which includes Volkswagen Assist (24 hour roadside assistance). People Movers are also covered by 3-year paintwork and 12-year anti-corrosion perforation warranty.

Volkswagen Assist 24 hour roadside assistance

As a valued customer, you can be assured that, wherever you travel within Australia, you will have access to roadside assistance, 24 hours a day, 365 days a year. This is complimentary for the duration of the vehicle's original Volkswagen warranty period. You will receive help in the event of a breakdown

or accident and, if required, your vehicle will be mobilised or transported to an Authorised Volkswagen Repair Centre.

Volkswagen Extended Warranty

Why not continue the confidence of a Volkswagen Warranty by purchasing a Volkswagen Extended Warranty? For further details on this option, please contact your local Volkswagen Dealer.

Volkswagen Service

Your Authorised Volkswagen Service Centre is part of Volkswagen's global Quality Management System, ensuring all dealers are certified to ISO 9001:2000 – an internationally recognised Quality Standard. Authorised Volkswagen Service Centres have factory trained technicians

equipped with the very latest diagnostic equipment, specialist tooling and Volkswagen Genuine Parts. An Authorised Volkswagen Service Centre undertakes work in accordance with factory specified guidelines and maintenance schedules.

Volkswagen Genuine Parts®

Volkswagen Genuine Parts® are designed for your vehicle and approved by Volkswagen, with particular regard to safety. The workmanship, dimensional accuracy and materials used in these parts comply with factory specifications. To ensure safety and reliability, Volkswagen recommends the use of Volkswagen Genuine Parts®. Volkswagen Authorised Dealers offer a 2-year warranty on Genuine Parts from the date of purchase.

Environment

On a local level, we have undertaken a number of initiatives to reduce the environmental impact of our business processes, including careful recycling of office waste, for example. Energy usage is being reduced through lights controlled by motion sensors in toilets, kitchens and meeting rooms.

But there's no question that the area in which we can contribute most to environmental sustainability is with our vehicles. Our TSI engines combine innovative and world leading direct

injection petrol technology with turbocharging and are extremely fuel efficient with reduced CO₂ emissions.

Our TDI diesel engines consume less fuel and emit less exhaust fumes offering high torque and performance, while our diesel particulate filters extract soot from the exhaust fumes. All Multivan and Caravelle engines already fulfill the very stringent Euro 5 emissions standards.

Our dual-clutch DSG gearbox provides the comfort of conventional automatic

transmission and the dynamic drive of a manual transmission. It has significantly lower fuel consumption in comparison with a conventional automatic transmission with torque conversion.

General information

Volkswagen is distributed by Volkswagen Group Australia Pty Ltd. 24 Muir Road, Chullora, NSW 2109. ABN 14 093 117 876. Specifications are as planned at July 2012 for model year 2013 and are subject to change without notice or obligation. Cars and accessories are shown for illustrative purposes only and may not depict Australian specifications. Fuel consumption figures according to Australian Design Rules (ADR) 81/02. All Volkswagen approved parts and accessories are warranted for 2 years/unlimited kilometres. All warranties implied by legislation or otherwise are excluded to the maximum extent permitted by law. The liability of Volkswagen shall, subject to the law, be limited at Volkswagen's discretion: 1. In the case of the goods, the repair or the cost of repair, or the replacement or the cost of replacement; and 2. In the case of services, the re-supply of the services or the cost of re-supply of the services. All information in this brochure is correct at time of publication, however variations may occur from time to time and Volkswagen, in so far as it is permitted by law to do so, shall not be liable in any way as a result of any reliance by any person on anything contained in this brochure. The colours shown in the brochure are indicative only and may vary from actual items owing to the printing process. Authorised Volkswagen dealers will provide up-to-date information on model application, design feature, prices and availability on request. Volkswagen Insurance & Volkswagen Extended Warranty are provided by Allianz Australia Insurance Limited (Allianz), AFS Licence No. 234708, ABN 15 000 122 580. In arranging this insurance, Volkswagen Financial Services Australia Limited, ABN 20 097 071 460 & Volkswagen Group Australia Pty Ltd, ABN 14 093 117 896 and the authorised dealers act as agents of Allianz and not as your agent. Volkswagen Finance is a trading name of Volkswagen Financial Services Australia Limited. Locked Bag 6252, Regents Park, NSW 2143. Tel: 02 9695 6311.
