Caravelle paint colours

The bodywork is galvanised first to give your Volkswagen optimum protection against mechanical and chemical influences. Only then is the paint applied in several layers and left to harden. The result is a scratch-resistant, hard finish for the top coat. You therefore leave a brilliant impression with your friends and business partners.

* Metallic and pearl effect paint are available at extra cost. The illustrations on these pages can only be regarded as a general guide as the printing process cannot render the colours with absolute accuracy. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available.

Owning a Volkswagen

Volkswagen New Vehicle Warranty

Volkswagen Caravelle and Multivan are covered by a 3-year/unlimited kilometre manufacturer's warranty, which includes Volkswagen Assist (24 hour roadside assistance). People Movers are also covered by 3-year paintwork and 12-year anti-corrosion perforation warranty.

Volkswagen Assist 24 hour roadside assistance

As a valued customer, you can be assured that, wherever you travel within Australia, you will have access to roadside assistance, 24 hours a day, 365 days a year. This is complimentary for the duration of the vehicle's original Volkswagen warranty period. You will receive help in the event of a breakdown or accident and, if required, your vehicle will be mobilised or transported to an Authorised Volkswagen Repair Centre.

Volkswagen Extended Warranty

Why not continue the confidence of a Volkswagen Warranty by purchasing a Volkswagen Extended Warranty? For further details on this option, please contact your local Volkswagen Dealer.

Volkswagen Service

Your Authorised Volkswagen Service Centre is part of Volkswagen's global Quality Management System, ensuring all dealers are certified to ISO 9001:2000 – an internationally recognised Quality Standard. Authorised Volkswagen Service Centres have factory trained technicians equipped with the very latest diagnostic equipment, specialist tooling and Volkswagen Genuine Parts. An Authorised Volkswagen Service Centre undertakes work in accordance with factory specified guidelines and maintenance schedules.

Volkswagen Genuine Parts®

Volkswagen Genuine Parts® are designed for your vehicle and approved by Volkswagen, with particular regard to safety. The workmanship, dimensional accuracy and materials used in these parts comply with factory specifications. To ensure safety and reliability, Volkswagen recommends the use of Volkswagen Genuine Parts®. Volkswagen Authorised Dealers offer a 2-year warranty on Genuine Parts from the date of purchase.

Capped Price Servicing

Volkswagen Commercial Vehicles have introduced Capped Price Servicing across the entire Commercial Vehicle Range. This new program supports our commitment to customer satisfaction and provides total transparency for complete peace of mind.

All vehicles registered after 1 January 2013 will be covered for a total of 90,000km (or 180,000km for Crafter models) or six years (whichever comes first). Our scheduled service includes the regular replacement of oil filters, engine oil and sump plug washer at each service interval, as well as the standard replacement of the air filter (at 45,000 and 90,000km) and spark plugs (every 60,000km).

To reference how much each service will cost for your specific Volkswagen Commercial Vehicle, you can contact your participating Volkswagen dealer or go to www.volkswagen-commercial.com.au

Environment

On a local level, we have undertaken a number of initiatives to reduce the environmental impact of our business processes, including careful recycling of office waste, for example. Energy usage is being reduced through lights controlled by motion sensors in toilets, kitchens and meeting rooms.

But there's no question that the area in which we can contribute most to environmental sustainability is with our vehicles. Our TSI engines combine innovative and world leading direct

injection petrol technology with turbocharging and are extremely fuel efficient with reduced CO₂ emissions.

Our TDI diesel engines consume less fuel and emit less exhaust fumes offering high torque and performance, while our diesel particulate filters extract soot from the exhaust fumes. All Multivan and Caravelle engines already fulfill the very stringent Euro 5 emissions standards.

Our dual-clutch DSG gearbox provides the comfort of conventional automatic

transmission and the dynamic drive of a manual transmission. It has significantly lower fuel consumption in comparison with a conventional automatic transmission with torque conversion.

Volkswagen is distributed in Australia by Volkswagen Group Australia Pty Ltd, 24 Muir Road, Chullora, NSW, 2190. ABN 14 093 117 876. Specifications are as planned at January 2014 for MY14 and are subject to change without notice or obligation. The colours shown in the brochure are indicative only and may vary from actual items due to the printing process. Vehicles are shown for illustrative purposes only and may not depict final Australian specification, which should be confirmed with your Volkswagen Commercial Vehicles dealer. Fuel consumption figures are according to Australian Design Rules (ADR) 81/02 unless otherwise stated. The information and the specifications contained within this document were correct at the time of issue. Due to our continuous process of improvement our products are continually updated and changes may be made to the specifications from time to time. Not all vehicles or options may be available. Check at time of ordering.
