

V40

CROSS COUNTRY

WE ARE VOLVO. WE PUT PEOPLE FIRST.

HELLO

| 1

We are Swedish. Scandinavian designers always start with the person who's going to use an object and ask, "What can we do to make this person's life better, easier or more comfortable?". We've always used this philosophy when we design our cars. So, while other car manufacturers might start with technology and try to squeeze people in around it, we begin by designing our cars around you. We ask what you need and then use our technical skills to make your life easier, better, safer and more beautiful. Form follows function, and when you design a car inside and out with people in mind, it looks naturally beautiful. We think that looking at and interacting with our cars should make you feel great, every day.

Designing cars around people has led to many innovations over our 86-year history. The three-point safety belt in your current car? That was our invention from 1959. We've solved a few environmental issues too. In 1976 we developed the Lambda Sond – a sensor that monitors exhaust gas, reducing emissions and boosting performance as well as economy. It's still part of every petrol-engined car in the world.

Innovation is at the core of Volvo. Perhaps it's because of where we come from.

IN SWEDEN, GREAT DESIGN IS
A WAY OF LIFE, NOT A LUXURY.

- 
- ◀ For such a small country, we've produced more than our share of creative talent. That's because we know that to be truly creative, you've got to believe in yourself and do things the way you know they should be done, regardless of what others are doing.

Take our seats. In the early 1960s, we consulted with a team of orthopaedic surgeons at Chalmers University of Technology here in Gothenburg. They wondered why a group of car designers wanted to see them. Nobody had thought to ask an orthopaedic surgeon's advice when designing a car seat before. But the ergonomic seat designs we developed as a result have made our cars world-famous for their outstanding long-distance comfort.

Like all Scandinavian craftsmen, we use only the best materials for the job, like the ultra-strong boron steel in our safety cages. We use natural, authentic materials inside our cars – not because they're fashionable this season, but because they make you feel good when you touch them and they're better for your health.

Creating a beautiful experience for you is natural for us. Because in Sweden, great design is a way of life, not a luxury.

THE PERFECT GETAWAY CAR.

YOUR NEW CAR

VOLVO V40 CROSS COUNTRY | 4

Our V40 Cross Country gives you the best in inspiring contemporary Scandinavian design in a compact hatch. It's got the versatility to fit in with your busy lifestyle, yet it also has the agility to really inject some fun into your driving, and its looks will make you stand out from the crowd. We understand your need to be able to get out into the countryside, so with our V40 Cross Country we've added even more potential for adventure and fun with some rugged design cues that will feed your thirst for spontaneity and have you exploring beyond the city limits every chance you get. And if your own adventure takes you beyond tarmac, we give you the opportunity to choose our All Wheel Drive, which will turn your V40 Cross Country into a true all-road vehicle.

Your V40 Cross Country might have a rugged profile, but it also has genuinely beautiful design flourishes such as the elegant rear light clusters.

GOING EXPLORING? YOU'LL NEED SOME TOUGH EQUIPMENT.

OUR DESIGN VISION

VOLVO V40 CROSS COUNTRY | 7

If you've spent any serious time outdoors, you will know how much you depend on robust, good quality equipment. That's what inspired us when we were designing the V40 Cross Country. To begin with, we raised the ground clearance over its standard V40 cousin which, together with a higher chassis, gives you a more commanding view of the way ahead – which is useful both in town and when you're in the countryside. Rougher terrain calls for bigger wheels too – the car shown here is fitted with bold 19" Alecto wheels. Then we covered vulnerable areas with a durable black bodykit to protect the nose and tail from stone chips. Add to this some gorgeous styling touches such as the honeycomb front grille and the upright Daytime Running Lights and you have the best of contemporary Scandinavian design, just with added attitude.

The rear skid plate provides the perfect finishing touch to your V40 Cross Country – it gives a strong visual clue to your Volvo's adventurous ability and it also offers extra protection when the going gets really tough.

TO SEE MORE OF THE V40 CROSS COUNTRY'S DESIGN FEATURES, GO TO VOLVOCARS.COM.AU

YOUR SURE-FOOTED PARTNER.

Dynamic Stability and Traction Control (DSTC) comes as standard. If there's a risk of your V40 Cross Country losing stability, DSTC applies just the right amount of brake force and reduces engine power as needed to prevent any skidding – and you'll never notice a thing.

[READ MORE ON VOLVOCARS.COM.AU](http://VOLVOCARS.COM.AU)

If your adventures tend to take you off the beaten track, we suggest you opt for our T5 version which comes with All Wheel Drive as standard and allows you to keep all 187kW of power going through the wheels to the road surface, whatever its condition. Team this with our Hill Descent Control and even in open country you'll be able to negotiate the steepest of slopes with the utmost confidence – all you have to do is steer. The V40 Cross Country

won't disappoint on the road either, with a limited top speed of 210km/h and a 0–100km/h time of 6.4 seconds. If you love driving you'll love our Corner Traction Control – which helps you avoid understeer by applying just the right amount of power and brake force to the inner and the outer wheels as you accelerate out of a corner. It's particularly handy if you're merging into fast moving traffic from a side road.

VOLVO SENSUS. YOU'RE IN CONTROL, NATURALLY.

SENSUS

YOUR SPACE | 11

Yes, the new Volvo V40 Cross Country has a beautifully sculpted exterior. But why should passers-by get all the enjoyment? Since you'll spend most of your time in the driver's seat, we've designed a gorgeous space around you. We've made all your instruments and controls as easy to use and intuitive as possible. We call this approach to connecting you and your car with the world around you "Sensus". Our beautiful new Adaptive Digital Display is the latest expression of this philosophy. Not only does it give you all the information you need without overwhelming you with data, it also gives you three modes to choose from – Elegance, Eco and Performance. Together with the Sensus screen in the dashboard, it makes commanding your drive an effortless experience.

And with Sensus Connected Touch, the 7-inch Sensus screen becomes a connected multimedia hub, giving you access to embedded connected navigation, music streaming and internet connection.

But it's not just our displays that are things of functional beauty. We've put the same amount of care into the steering wheel, as well as our iconic floating centre stack with our trademark "manikin" climate control buttons.

FULL SONIC IMMERSION

At Volvo, we believe you should enjoy the very best audio experience. That's why we've designed our state-of-the-art Premium Sound Multi Media System with Audyssey Laboratories. Using ten high-fidelity loudspeakers and MultEQ sound processor technology, this 5x130 W system provides an unparalleled aural experience for every passenger and connects easily with external media players.

[READ MORE ON VOLVOCARS.COM.AU](http://VOLVOCARS.COM.AU)

- ◀ Our beautifully designed, high-res colour display allows you to choose between three driving modes – Elegance, Eco and Performance.

OH YES. DID WE MENTION SAFETY?

INTELLISAFE

WE CARE ABOUT YOU | 12

In 1927 our founders, Assar Gabrielsson and Gustaf Larson, decided to make really strong cars that could cope with our rough country roads. But strength alone wasn't enough. They also had a vision: "Cars are driven by people," they said, "so the guiding principle behind everything we make at Volvo is – and must remain – safety". Now our goal is that, by 2020, nobody shall be seriously injured or killed in a new Volvo. We think our founders would have approved.

In order to help us achieve this goal, and in keeping with our philosophy of making your life easier, your V40 Cross Country has a whole suite of intuitive safety technologies inside it. They're there to support your daily driving, protecting you in the event of an accident and often preventing collisions in the first place. We call this IntelliSafe.

We know V40 Cross Country owners love driving, but in a world of busier and busier roads, you are constantly exposed to other people's mistakes. That's why IntelliSafe offers some really smart technologies such as City Safety, Collision Warning with Full Auto Brake and Pedestrian Detection as well as Cyclist Detection.

And because you love driving, it's good to know that your V40 Cross Country comes equipped with other IntelliSafe technologies like Dynamic Stability and Traction Control (DSTC). If there's a risk of your car losing stability, DSTC applies just the right amount of brake force and reduces engine power as needed in order to prevent any skidding. You'll probably never notice a thing. But that's OK, we're just doing our job.

Can you see our radar? It's hidden away in the V40 Cross Country's grille but working hard to keep you and people outside the car safe. We call it Collision Warning with Full Auto Brake and Pedestrian Detection – you'll call it a safety breakthrough.

In town, City Safety is designed to prevent or minimise a collision with the car in front if it stops suddenly. This advanced IntelliSafe system works at speeds of up to 50km/h and senses if you're about to collide with another car, then, if necessary, applies the brakes.

Our Blind Spot Information System (BLIS) now uses radar technology to alert you to vehicles closing up in your blind spot. There's also Cross Traffic Alert, which watches out for vehicles you can't see when you're reversing out of tight parking spaces.

Because we care about other road-users just as much as you, Pedestrian Detection with Full Auto Brake watches out for people walking into your path and applies the brakes if you're unable to react in time.

[READ MORE ON VOLVOCARS.COM.AU](http://VOLVOCARS.COM.AU)

WE THINK SUSTAINABLE
DRIVING IS EXCITING.
SO WILL YOU.

DRIVE-E

YOUR ENGINE CHOICE | 15

Drive-E is at the heart of every Volvo we make. It's our all-encompassing approach to sustainable driving, our innovative thinking behind a whole range of technologies that will give you more efficiency – and lower running costs – without compromising on a pleasurable drive.

Our Drive-E technological advances include reducing the friction within our engines and a host of aerodynamic improvements to help you get the maximum benefit from your engine and the fuel you put into your car. We employ Start/Stop technology,

energy recovery systems and always strive to make our manufacturing processes more sustainable. All of the electricity for our factory in Sweden comes from clean, hydroelectric power. After all, environmentally-aware mobility is central to our philosophy of intelligent, thoughtful luxury.

Integral to this is the choice of powerful, efficient engines available for the V40 Cross Country, from the five-cylinder 2.0 litre turbodiesel D4 with CO₂ emissions of just 139g/km, to the five-cylinder T5 AWD 187kW petrol option.

YOUR V40 CROSS COUNTRY

EXPRESS YOURSELF

VOLVO V40 CROSS COUNTRY | 16

V40 CROSS COUNTRY

LUXURY Includes as standard:

Adaptive Digital Display with Active 8" TFT Display | LED day running lights | Start/Stop technology | Cruise Control | Driver and passenger airbags | Pedestrian protection system | 3-point safety belts on all 5 seats with belt reminder | City Safety | Corner Traction Control (CTC) | Dynamic Stability & Traction Control (DSTC) | Electrical power assisted steering (EPAS) | Rain sensor | Electronic climate control | Load cover | Illuminated vanity mirror | Cup holders in tunnel console | Rear armrest and rear cup holder | Frameless auto dimmed rear view mirror | Audio controls in the steering wheel | Immobiliser | Rear door power child locks | Heated and power retractable rear view mirrors | Trip computer | Tempa spare wheel and jack | Outer temperature gauge | Remote control central locking | Side impact airbags integrated in the front seats | Inflatable curtains | Whiplash protection integrated in the front seats (WHIPS)

+ optional DRIVER SUPPORT PACK
Includes the following:

Blind Spot Information System (BLIS) with Cross Traffic Alert | Driver Alert System includes Lane Departure Warning, Lane Keeping Aid, Active high beam control, Forward collision warning and Road Sign Information | Adaptive Cruise Control and Collision Warning with Full Auto Brake, including Queue Assist with Pedestrian and Cyclist detection | Park Assist Pilot with front and rear parking sensors

OUTSIDE: MUD, RAIN, WIND INSIDE: TOTAL REFINEMENT

PERSONALISE YOUR INTERIOR

Your Volvo V40 Cross Country should be as personalised as the adventures you're going to enjoy in it. Our ergonomic seats have always been a Volvo strength – supportive enough to keep you feeling fresh after the longest journeys over the roughest roads. Now, for the V40 Cross Country,

you can choose from a variety of two-tone designs with accent stitching that really enhance the sporting feel of your car. Getting the light right is important in Scandinavian interior design, and it's the same in our cars – the Theatre Lighting lets you choose your desired interior ambience after dark from a

selection of seven different modes. During the day, our fixed panoramic glass roof gives you and your passengers a superb sense of light and airiness inside your car. To maintain comfort on even the sunniest days, the tinted glass reduces infrared radiation. And if there's too much sunshine,

just close the sliding curtain with the touch of a button. The illuminated gear shifter and frameless rear view mirror complete an interior that reminds you and your passengers that this is a superbly designed vehicle, every time you drive.

ACCESSORIES

VOLVO V40 CROSS COUNTRY | 24

The Volvo V40 Cross Country is your ideal companion for those spur-of-the-moment escapes from the city. We have accentuated your car's rugged looks with our Exterior Styling Kit. And with our range of accessories, you can now personalise your Volvo even further. Make a splash with our unique wheels or connect to the internet with our Sensus Connected Touch, we have the accessories that fit your lifestyle.

FIND MORE ACCESSORIES ON VOLVOCARS.COM.AU

The stylish and robustly built silver coloured rear deco trim with rubber inlay not only complements other Exterior Styling Kit details on your Volvo, it protects the rear bumper during loading and unloading.

The silver coloured side scuff plates add an extra touch of attitude to the Volvo V40 Cross Country – perfectly matching the sill and other V40 Cross Country exterior styling accessories.

This rear skid plate with elegantly integrated oval double tail pipes in chromed stainless steel provides a powerful yet refined finish to the V40 Cross Country's rugged design.

Need a cup of coffee? A bunch of flowers in a hurry? Thanks to Sensus Connected Touch it's easy to search for destinations using Google® before linking seamlessly to iGo®, our connected embedded navigation system with visual and voice directions.

Sensus Connected Touch comes with voice-controlled Spotify®. If, for example, you want to listen to the music of a particular artist, just say their name. The system also searches any connected USB sticks, tablets or smartphones. And the whole universe of global internet radio is just a prompt away.

Your Volvo can keep you in touch with family and friends via Facebook®, email and Twitter®. Even better, you can turn your Volvo into a Wi-Fi hotspot using a USB 3G/4G dongle. Or simply tether your smartphone to Sensus Connected Touch and you'll create a wireless internet connection you can then use for other devices, such as a tablet.

Please note. Some functionality may be restricted by vehicle speed.
