

THE NEW  
**VOLVO V90**  
CROSS COUNTRY

# INNOVATION FOR PEOPLE.

*Made by Sweden.*

At Volvo Cars, we continuously innovate in order to make your life better. Every car, every technology and every design is the result of a clear vision – to put people at the heart of everything we do. It's a vision that has driven us from the start, one informed by Sweden, a country which values people as individuals and where conventions are challenged. It's a culture with a rich design heritage and a unique way of looking at the world.

This vision has inspired us to create the likes of the three-point safety belt and side-impact airbags – inventions that have saved lives and changed automotive history. And with our new generation of cars we continue with this tradition.

Scandinavian design combines with modern Swedish luxury to enrich your experience. Intuitive Sensus technology makes life less complicated and keeps you connected with the world, while the latest Drive-E powertrains balance responsive power with class-leading efficiency. And our IntelliSafe innovations support you while you are driving, helping to prevent accidents. They make your journey more comfortable and enjoyable.

We understand what's important to people. It forms the basis of all the innovations which we create. Innovations that improve lives.

At Volvo Cars we design our cars around you.

THE VOLVO  
EXPERIENCE | 58

Ever since we came up with the idea of adding go-anywhere capability to the legendary versatility of our estate cars, the Volvo Cross Country has been taking drivers further. To the places they want to reach, the things they want to do, the experiences they want to be part of. And, all the while, we do this by keeping them safe, comfortable and in control.

We've been refining the concept for nearly two decades. Now we've arrived here – this is the new V90 Cross Country. The point at which all that experience meets Volvo's new generation of elegantly versatile estate cars. The result is a car that combines the best of Scandinavian design and craftsmanship with true all-road capability. This is the car that gets you where you want to go.

*"No matter what's going on outside,  
the V90 Cross Country is a sanctuary inside."*

## GO FURTHER

*Your sophisticated adventure awaits.*

A car to take on more than the everyday, the V90 Cross Country is a true all-road vehicle. In bad weather, on rough roads and when conditions get tough, you can rely on it.

Elegant and refined, the V90 Cross Country tells the world what it can do and where it can take you. Clean, taut lines and rugged details create a powerful look that conveys a strong sense of capability – with all the practicality of the Volvo estate built in.

The V90 Cross Country is packed with innovative technology that has one purpose: to make your life easier, and one principle: it must be easy to use. The sophisticated chassis is built to cope with road conditions that would stop lesser vehicles and to make tackling those conditions easier for you. No matter what's going on outside, the V90 Cross Country is a sanctuary inside. The spacious, light-filled cabin is made from

the finest materials and constructed with the care and attention provided by Swedish craftsmanship. Designed to make every experience an adventure, it is a place where you can relax in comfort, where technology enhances your journey and makes life easier.

**Visible strength.** Combining the elegance of our new design language with Cross Country ruggedness has created a car that's sophisticated, tough and practical.

Its large wheels and increased ground clearance give you confidence on any road. The front and rear skid plates blend seamlessly into the bumper for an elegant and rugged look, and the cladding helps to protect the bodywork. Bold lines, the raked rear window and the tall LED tail lights, with their slender vertical shape, are both contemporary and classically Volvo.

## DESIGNED FOR CONTROL

*Precision and accuracy at every touch.*

From the moment you settle into the sculpted driver's seat you're in control. You sit comfortably in the V90 Cross Country, with the 9-inch centre display with touch screen angled towards you to create the feeling of a cockpit. You're surrounded by an environment where beautiful materials and advanced technology meet, creating a cabin that looks great and works perfectly.

Black Walnut trim, unique to the V90 Cross Country, typifies our approach to materials: modern, restrained and good to touch. The exceptional craftsmanship enhances the feeling of precision. The air vents are inspired by our concept cars. With a metal-finish vertical strip and distinctive diamond-pattern surfaces for the control knobs they are beautiful to look at and a pleasure to use.

In the V90 Cross Country, every component moves with the accuracy afforded by fine engineering. It is a car that gives you control over every part of your journey.

---

Leather Charcoal in Charcoal interior RA00 | Black Walnut inlay

**An air of luxury.** The beautiful, comfortable cabin will delight you and your passengers on every journey. The panoramic roof (optional) makes the most of the airy feel and Scandinavian design.

*"In the V90 Cross Country, technology and convenience go hand in hand."*

## Light. Space. Luxury.

Travel first class in every seat, every day. Because when you're in the V90 Cross Country you're in your own private lounge, a place where comfort and luxury combine with technology and craftsmanship.

It starts with the front seats. Sculpted to complement the human form, they provide superb support and a huge range of adjustment, so everyone can find the ideal seating position. The optional ventilation and massage functions provide even greater comfort.

The shape of the backrests increases legroom for passengers in the rear. The rear

seats are designed to cosset and support, while four-zone climate control, optional retractable rear sun blinds add to the sense of luxury.

The optional panoramic glass sunroof floods the entire cabin with light. Tinted to prevent glare, the roof opens to create an even more airy feel, and can be closed remotely using the remote control.

At night the cabin glows with the warmth of its interior lighting, welcoming you into the car. The high-level illumination lighting package includes backlit door handles and illuminated tread plates, as well as additional

interior lighting that enhances the exclusive ambience.

CleanZone technology means that, in cities and heavy traffic, the air you breathe inside the car is cleaner than the air outside. It filters dust, pollen, particulates and odours while monitoring the air quality and closing the intakes if pollutant levels rise too high. It happens automatically – all you need to do is set the temperature you want and the car does the rest.

In the V90 Cross Country, technology and convenience go hand in hand.

In the driver's seat you're in charge. Control functions such as navigation and entertainment from the steering wheel buttons, while the 12.3-inch driver display keeps you informed.

Every element of the cabin is crafted to make form and function one. The door handles can be backlit, making them easier to find in the dark.

Beautiful, natural materials such as Black Walnut complement the car's advanced technology, creating a uniquely contemporary look.

*“The clever design and versatile interior layout  
make every day easier.”*

## READY FOR EVERY ADVENTURE

*A car that fits your life – all of it.*

Getting you there is just the start. The V90 Cross Country matches its all-road ability with built-in versatility to create a car that can do more.

The clever design and versatile interior layout make every day easier. The shape of the load compartment makes it easy to fit in awkwardly shaped objects, and the rear seats fold at the touch of a button to create a longer, completely flat load space (electric fold seats are optional). You can do this from inside the load compartment so you don't

have to open the rear doors to fold the seats. The through-loading hatch means you can carry long items such as skis without folding the seats.

The power-operated tailgate has a hands-free function, so if your hands are full you don't have to put down what you're carrying to open it. Just move your foot under the rear bumper to automatically open and close the tailgate.

To make your V90 Cross Country even more useful, add extra equipment from our range of load compartment accessories. From dividers that split the load compartment in two so you can carry two pets (or a pet and luggage) to a steel grille that provides a sturdy barrier between load and passenger compartment, there's an accessory for every occasion.

All-road capability  
opens up your world.

The V90 Cross Country is a true all-road vehicle, with the technology to take you further. So the limits of your adventure don't have to be defined by the limits of your car.

Our sophisticated fifth-generation all-wheel-drive system keeps the V90 Cross Country moving when roads get rough or conditions deteriorate. It automatically sends the right amount of power to the wheels that need it the most, so when the road runs out you can keep going. With its increased

ground clearance and large wheels, this car has the capability to take you wherever you want to go. Descending steep hills is made straightforward with Hill Descent Control, which carefully applies the brakes to keep the car from moving too quickly or sliding.

You can tailor the way the V90 Cross Country behaves off road by selecting Off-road mode from the optional Drive Mode menu. It makes the car easier to drive on difficult surfaces such as wet

grass, mud and loose gravel by changing the way the engine delivers its power and recalibrating the car's drivetrain so you have more control at slower speeds. On uneven ground, the optional Active chassis with rear air suspension comes into its own, taking bumps and ruts in its stride. When the road becomes a challenge and the weather becomes unpredictable, the V90 Cross Country gets you where you want to go. In comfort.

(Overseas model shown)

*“Sensus connects you with  
your Volvo and the rest of the world.”*

## **SENSUS**

*Informed, in control and always up to date.*

Sensus has a guiding principle – to make your life easier and more enjoyable, whether it's your comfort, entertainment or navigation requirements. Sensus connects you with your Volvo and the rest of the world. It keeps you informed, entertained and in control of your journey.

Intuitive, easy-to-use controls are a prime feature of Sensus and you will find them on

the large, 9-inch centre display with touch screen. Replacing physical buttons with virtual equivalents on the screen allows them to be larger and easier to use. Bold, clear graphics make it easy to absorb information at a glance. Our philosophy has always been that you should be able to operate your Volvo and keep your eyes on the road. The optional head-up display means you can do just that

while staying connected and informed.

The Sensus experience enriches every moment that you spend in your Volvo.

*“Turn the centre display into an extension of your iPhone® using Apple CarPlay™ and Android Auto™.”*

## Connecting you with a world of entertainment.

Get closer to the music you love, no matter which seat you're in. With Sensus Connect all of your music is available all of the time, whether it's direct from your favoured media source or streaming from the internet.

It all begins with the 9-inch centre display, the control centre for Sensus. The surface responds to the lightest of touches – you only need to brush your fingers over the glass to operate the controls. It even works with gloved hands.

Connecting your devices is quick and easy. Simply plug your iPhone® into the car using the USB connection and you can turn the centre display into an extension of

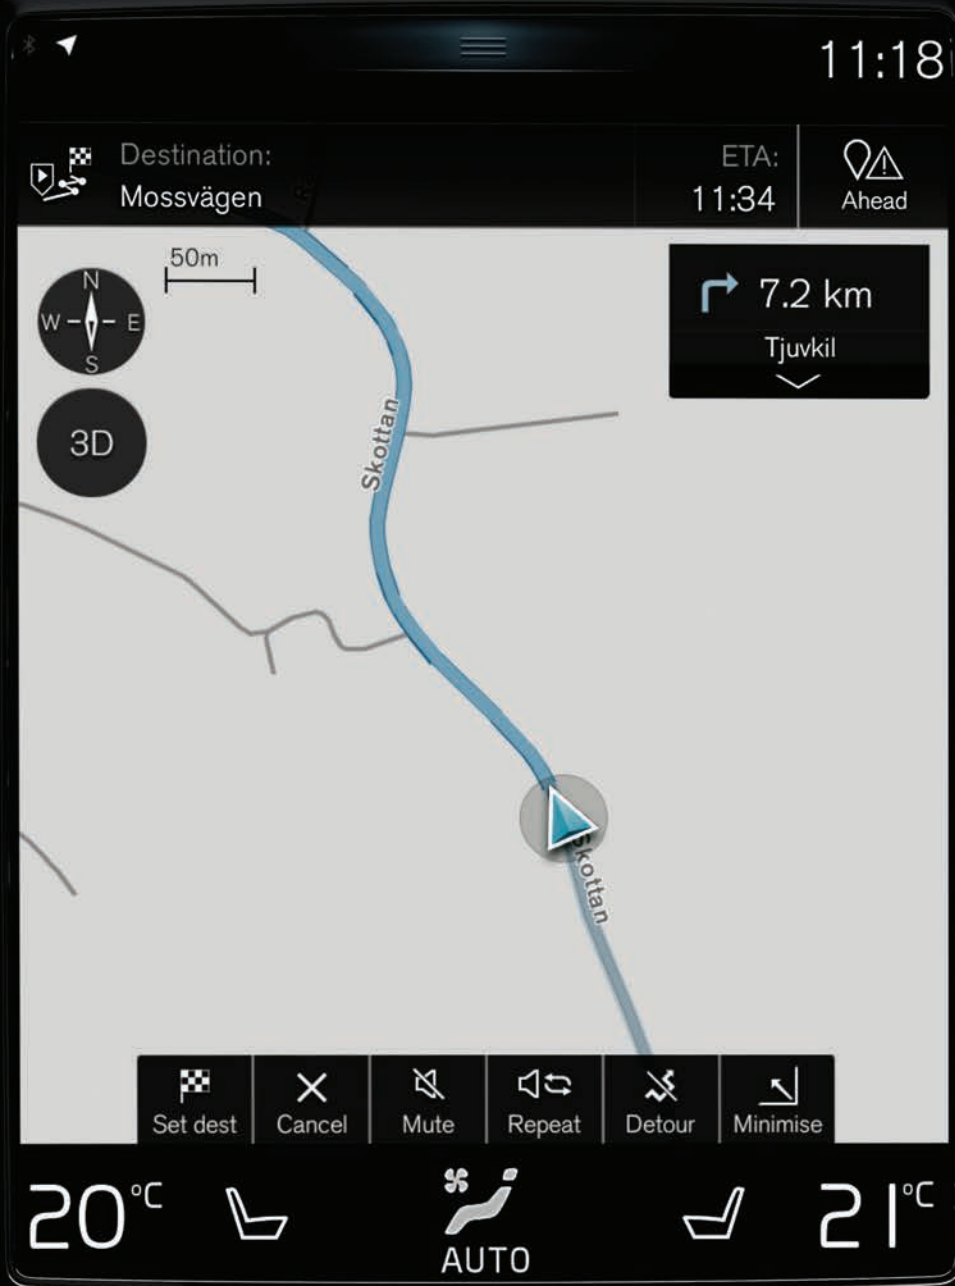

your iPhone® using Apple CarPlay™. When it's connected to Apple CarPlay™ your phone will be charging, too. And Android smartphone users can connect with Android Auto™ to access music, make calls and send messages.

Your choice of entertainment is not limited by what you have on your smartphone or portable audio player. Tethered internet increases your choice, with a fast and stable connection. Our standard High Performance audio system is tuned to make the most of your music, while optional Premium Sound by Bowers & Wilkins takes the listening experience to another level.

**Premium Sound by Bowers & Wilkins** gives every occupant a superb audio experience, no matter which seat they are sitting in. Developed with Bowers & Wilkins, creators of high-end audio, this innovative technology brings exceptional clarity and realism to your favourite music. The unique air-ventilated subwoofer delivers richer, deeper bass by drawing air in from outside the car so it can pulse more air through the speaker. There are 19 speakers, allowing

everyone in the car to get the best possible sound, all the time. And you get closer to the performance by using one of the system's three room modes to bring the music to life. Concert mode recreates the unique acoustic experience of the Gothenburg Concert Hall, while Stage and Studio modes put you at the heart of the music, allowing you to hear it as the musicians intended.

The focal point of the elegant cabin is the 9-inch centre display with touch screen, which uses a portrait format to give you a large viewable area that means less scrolling. This format is perfectly suited to displaying maps, and mirrors the look of modern smartphones in its layout, so it feels instantly familiar and intuitive. It features a glossy black finish that, thanks to a special coating, minimises reflection – so it not only looks beautiful but works beautifully. This is how technology should be.

*SENSUS*

# Get to your destination every time, with ease.

Let Sensus Navigation be your guide, helping you find your destination and keeping you informed. Our sophisticated navigation uses intuitive technology so that wherever you go, you'll get there quickly and easily.

Everything you need to know is shown on the 12.3-inch driver display right in front of you. The high-resolution image self-adjusts so it's never too bright, automatically resizing the instruments to accommodate navigation information. The optional head-up display displays all the vital information onto the lower part of the windscreen, projected to look like it is hovering in front of the car.

It means you stay informed without ever having to take your eyes off the road.

Getting to your destination is made even easier with the clear graphics of our maps. And, because we give you free life-time mapping upgrades, Sensus stays one step ahead, guiding you accurately.

Sensus also saves you time by helping you find what you're looking for, with built-in navigation apps capable of locating a parking space and finding petrol stations.

With Sensus taking care of the way ahead, you can enjoy the journey.

**Voice control.** Controlling Sensus is as easy as telling it what to do. Talk to your Volvo, using natural phrases such as "go to Melbourne Airport" or "call Emily Johnsson", and voice control will carry out your instructions to operate climate control, navigation, infotainment and your smart phone.

**Centre display.** The portrait format centre display with touch screen makes reading maps and following navigation prompts beautifully straightforward. Maps appear as they would in an atlas and they scroll less, so you can see where you're going and what's coming next. Its clarity, size and orientation make it the ideal companion for every journey.

SENSUS

**The power to protect.** Hidden behind the striking front end lies an array of safety technology that helps to make driving safer and easier.

*“Journeys are more relaxed with  
IntelliSafe there to help you.”*

## **INTELLISAFE**

*Always looking out for you.*

IntelliSafe is our name for the intuitive, intelligent technologies that support your driving, help to prevent accidents and protect you in a collision. This innovative technology plays a key role in helping us to realise our bold vision that, by 2020, no one will be killed or seriously injured in a new Volvo car.

City Safety is at the heart of IntelliSafe. Fitted as standard, it's like a co-pilot that's looking out for you, detecting danger ahead then warning you and intervening if necessary. City Safety identifies other

vehicles, pedestrians, cyclists and large animals ahead of you, even at night. It warns you of any hazards and, if you don't react, it will brake automatically to help avoid or mitigate a collision.

Journeys are more relaxed with IntelliSafe to support you. Pilot Assist adjusts the steering to help you keep the car centred in its lane and at a constant speed or a set distance from the car in front. Run-off road Mitigation is a world-first that steers and, if necessary, brakes for you to help prevent you leaving the road accidentally. Driver

Alert Control recognises if you're tired or distracted and suggests that it's time to take a break, while Road Sign Information reminds you of the speed limit.

Standard BLIS™ (Blind Spot Information System) for increased awareness and confidence on the highway, alerting you to vehicles alongside you. When you're reversing out of a parking space Cross Traffic Alert keeps an eye out behind your Volvo for other road users.

With Pilot Assist, your Volvo makes your journey easier and more relaxing. Pilot Assist helps keep your Volvo at a set speed or a set distance from other vehicles and, at speeds of up to 130km/h, it helps keep the car in the centre of the lane by making small adjustments to the steering.

At differences in speed up to 50km/h, City Safety helps to prevent you from colliding with the vehicle in front by braking if you don't, should it detect that an impact is imminent. At higher speeds the collision is mitigated.

Keep your eyes on the road and let our BLIS™ (Blind Spot Information System) keep an eye on your surroundings. Radar sensors keep constant watch in order to alert you if a vehicle enters your blind spot.

With our Cross Traffic Alert technology you can reverse out of a space knowing that there are no vehicles about to collide with you. This technology can spot vehicles approaching from either side of your Volvo at a distance of up to 30 metres, and cyclists and pedestrians at shorter distances.

D5 AWD | Cross Country | 714 Osmium Grey metallic | 20" 10-Spoke Black/Diamond Cut alloy wheels, 226

*INTELLISAFE*

### Perfect parking, every time.

Park Assist Pilot is like having someone park your car for you. It tells you if a parking spot is the right size for your Volvo and then takes over the steering to slot it in. It requires a space just 1.2 times the length of your Volvo, so it can tackle even the tightest of spaces. Engage a gear, accelerate and brake according to the screen prompts and your Volvo will take over the steering completely to manoeuvre your car into the space. If you want to park the car yourself, the optional 360° camera will help you fit into the space with confidence.

INTELLISAFE

# Protecting what's most important.

Protecting you and your passengers has always been our priority at Volvo Cars, and our latest generation of cars does more than ever to keep you safe. From preventive technology that helps you avoid collisions to protective features that cushion the impact of any collision, we will never stop innovating in order to improve your safety.

Your Volvo surrounds you with protective safety. The foundation for our new generation of cars is a very strong passenger compartment that uses a high percentage of

ultra high-strength (boron) steel to create a protective cage around you and your passengers.

Volvo Cars gave the world the three-point safety belt in 1959 and our latest developments continue this commitment to life-saving inventions. Run-off road Mitigation is an emergency system which intervenes with steering inputs and brakes if it detects you are about to come off the road.

Should your car leave the road, Run-off road protection technology reduces your

chances of suffering serious injury. Prepared front safety belts automatically tighten when the car senses that an impact is imminent, ensuring that you and your passenger are in the safest position if a collision occurs. Our unique energy-absorbing seats also help to protect your spine in the event of a hard landing should the car become airborne.

It's this range of safety technologies and attention to detail that makes your Volvo a safe place to be.

Volvo is synonymous with road safety. We put our first safety cage into production in 1944, and created the three-point safety belt back in 1959. And we're still innovating today. Prepared front safety belts tighten automatically if the car detects that a collision is likely, to ensure you're in the safest position should one occur.

The sculpted front seats are more than just beautiful to look at. Their unique structure helps to absorb vertical impacts, helping to protect your spine if the car lands heavily after leaving the road or becoming airborne. It's another example of how we make every part of a Volvo work harder for your safety.

INTELLISAFE

*“Balancing performance and efficiency, every Volvo powertrain gives you on-demand power with low fuel consumption and emissions.”*

## DRIVE-E

### *Enjoying more, using less.*

With the perfect balance between performance and efficiency, every Volvo engine gives you on-demand power with low fuel consumption. We achieve this with Drive-E, the cutting-edge technology behind our advanced diesel engine, where performance and efficiency are built in.

It's our innovative culture that enables us to create such engines. The D5 powertrain features PowerPulse, a Volvo Cars world-first. It activates the turbocharger as soon as you press the accelerator to give an instant boost of acceleration from standstill and at lower speeds. Technology such as this enables us to offer the power of a much larger engine from a compact four-cylinder, so you get the perfect mix of power and efficiency.

Smaller engines lose less energy through friction so they can make every drop of fuel work harder to minimise emissions. We've used low-friction components to make them run smoother and more efficiently. Reducing size and weight has freed up interior space and improved the car's handling.

Our eight-speed Geartronic™ automatic gearbox make the most of each engine's potential. Designed to minimise power loss and maximise performance, Geartronic™ will always select the right gear for whatever is coming next, or you can choose to change gear yourself in manual mode.

To help you drive more efficiently, select Eco mode and the V90 Cross Country recalibrates the drivetrain for the lowest possible fuel consumption and emissions.

The coast function disconnects the engine from the automatic transmission when you release the accelerator at speeds above 65km/h so it isn't being used to slow the car.

Our diesels are quiet and smooth for a relaxing journey, thanks to ground-breaking i-ART injection technology. By precisely metering exactly the right amount of fuel for each cylinder, i-ART helps the engine run more smoothly while using less fuel. And the technology ensures it stays that way for the car's lifetime. You will always benefit from low fuel consumption.

At Volvo Cars, by looking to the future we enhance your life today. Drive-E brings together advanced technologies to give you efficiency, performance and range – and a better drive for you.

# Driven to perfection.

We designed the V90 Cross Country from the ground up for all-road capability and on-road precision. That's why the sophisticated suspension gives you the best of both worlds. Accuracy and precision when you want it, with the technology to keep you moving when conditions are bad.

Double wishbone front suspension works in harmony with integral axle rear suspension to give you precise control over the car. Optional rear air suspension compensates for loads, while adapting to the road and driving conditions for an even better ride. Advanced driver aids such as Electronic Stability Control and Understeer Control Logic keep the V90 Cross Country stable, contributing to the way it handles corners. The Cross Country suspension and larger wheels create additional ground clearance, and all-wheel drive gives you the edge on demanding roads and in challenging conditions.

Choose between five drive modes (with the optional drive mode settings feature) that allow you to tailor the car's behaviour to your mood and find the perfect setting for the road you're on. Select Off-road mode and Hill Descent Control is automatically turned on, helping you negotiate steep downward slopes. Altering the engine, gearbox, accelerator and steering response changes the way the car behaves and, with the optional Active chassis with rear air suspension, how it rides and handles.

And when you come to a stop, the V90 Cross Country helps you to get going again. Hill Start Assist makes pulling away on an incline effortless by holding the car on the brake until you press the accelerator. Auto Hold keeps the brakes on after you've released the pedal, so you can let the car do all the work in stationary traffic.

Discover superior comfort and handling created by the optional rear air suspension. It soaks up poor road surfaces and keeps the ride height constant so the car responds how you want it to. Optional active chassis technology allows you to customise the way the V90 Cross Country rides and handles.

D5 AWD | Cross Country | 714 Osmium Grey metallic | 20" 10-Spoke Black/Diamond Cut alloy wheels, 226

# Enjoy the performance.

At the heart of the V90 Cross Country is a powerful, refined and advanced diesel powertrain that gives you a great driving experience – and because the engine is coupled to all-wheel drive, the V90 Cross Country opens up a new world of

destinations.

The 173kW, 480Nm D5 engine uses Volvo Cars' Drive-E technology to maximise power and minimise emissions, and the engine offers the performance of a larger engine with the efficiency of a four-cylinder.

The sophisticated diesel powertrain provides equally strong performance as the D5 AWD is the most powerful diesel we've ever built.

**D5 AWD** | 173kW | 480Nm

D5 AWD | Cross Country | 714 Osmium Grey metallic | 20" 10-Spoke Black/Diamond Cut alloy wheels, 226

# DISCOVER A NEW WAY TO EXPLORE

In a Volvo, you can enjoy the finer aspects of freedom. Such as the freedom to explore new roads, the freedom to enjoy the experience and – not least – the freedom to create a car that matches your style and

personality. Choosing a Volvo is more than a statement of your personality. It's about knowing what's most important in life and going in that direction. To show a greater care for people and the world we share, and

never compromise with design and quality. To choose a car that's more human-centric, more intuitive and more efficient – simply much of what empowers you to live a rich, authentic life.

(Left: overseas model shown. Both: optional wheels shown.)

## A HIGHER GRADE OF REFINEMENT

We created the exclusive V90 Cross Country to meet your highest expectations on Scandinavian refinement and intuitive technology. Each detail is carefully selected to give you and your passengers a sophisticated and invigorating experience

on the road to your adventure. Distinctive 19-inch wheels enhance the elegant yet powerful look of the V90 Cross Country, while the meticulously crafted interior gives you ample room for a relaxed driving experience. The V90 Cross Country

epitomises our proud heritage of human-centric design. When it comes to intelligent refinement imbued with distinctive style and fresh thinking, the V90 Cross Country is in a class of its own – just like you.

The V90 Cross Country means refined luxury, featuring all the technology, comfort and versatility you need for sophisticated adventures. The distinct five-double spoke Black/Diamond Cut wheels harmonize perfectly with the high gloss black exterior details and the integrated bright roof rails. Together with the elegant dual integrated end pipes, the wheels also contribute to the car's confident stance.

Every time you open the door, the metal tread plates provide an illuminated welcome. The luxurious theme continues with authentic, finely crafted materials that create a lounge-like atmosphere of sumptuous well-being. You and your passengers can lean back in sculpted power-operated Comfort seats with Fine Nappa Leather

upholstery and Cross Country stitching. Exclusive Black Walnut genuine wooden decor inlays, textile floor mats and our most advanced ambience interior illumination add to the rewarding Cross Country experience.

For you as driver, the large intuitive 12.3-inch driver display with four graphic modes and convenient drive mode and steering settings in the console (optional) between the front seats add to your feeling of being in command. And to enhance your driving experience, our optional Active chassis with rear air suspension optimises comfort and handling – select between five different chassis settings with the drive mode control.

For an even higher level of comfort you can complement the front seats with ventilation and massage functions. The

standard four-zone climate control allows both the driver and the front seat passenger as well as the outer rear seat passengers to set their individual cabin temperature. And adding a panoramic roof, everyone inside your V90 Cross Country will enjoy a superb experience of air and light – the front section can be opened at a push of button and during sunny days a power operated sunshade in perforated textile will reduce the heat and glare while maintaining the airy feel inside the cabin. And turning your V90 Cross Country into a concert hall, our optional high-end audio system Premium Sound by Bowers & Wilkins brings exceptional clarity and realism to your music, wherever you're seated.

The rugged yet elegant V90 Cross Country exterior is a timeless expression of classical Scandinavian design. The exterior colour palette allows you to create the V90 Cross Country that best reflects your style and preferences. The lower body parts and wheel arch extensions in contrasting Charcoal add to the rugged character, while some body colours are also available fully colour-coordinated for enhanced elegance. Available in distinctive diamond cut design, the 19- or 20-inch wheels connect visually with the exterior design cues to create a harmonic impression of contemporary elegance.

1. Volvo designed roof box 2. Load carriers 3. Bumper cover

## Get more from life.

Add to the inherent practicality of the V90 Cross Country with a range of exterior accessories from Volvo Cars, which are designed to look good and work flawlessly. Made from tough, high-quality materials they're built to withstand the punishment inflicted by Sweden's winter.

Take advantage of our range of roof-mounted accessories by adding a pair of tough, low-profile load carriers. Easy to fit – they clip onto the car's roof rails – they instantly allow you to fit our load carrier accessories, from the ski rack to the canoe and kayak holder.

Our lightweight, stylish roof box fits straight onto the load carriers, adding 350 litres to the carrying capacity. Ideally suited to carrying skis (and capable of carrying up to six pairs) its low weight and quick grip mountings make it possible to fit with one hand. Neat touches such as LED lighting in the lid, to help you load in the dark, make the roof box indispensable if you have lots to carry.

The bumper cover protects the paintwork from damage caused by loading objects into the boot. Made from stainless steel with a high gloss finish, the cover looks great and works well.

Your Volvo Cars dealer can also offer a wide range of winter wheels for safe driving during the wet and cold season.

5. Load compartment dirt cover, fully covering. 6. Load compartment mat, reversible and foldable.

Make your life easier with accessories that extend the built-in versatility of the V90 Cross Country and protect the car's interior.

A steel grille provides a sturdy barrier between the load and passenger compartments. The load compartment divider splits the boot in two so you can carry a pet and luggage, and a dog gate creates a

secure compartment to keep pets safe.

Keep the interior of your V90 Cross Country immaculate with our load compartment covers, including a tough plastic mat, a dirt cover that protects the entire load compartment (and folds out to protect the bumper too) and a reversible, foldable mat with fabric on one side and

plastic on the other. An illuminated tailgate scuff plate covers the load sill.

A set of Volvo-designed mudflaps deflects road grime and dirt from the car's bodywork and reduces the effects of spray on following traffic. Made from soft plastic they are tough enough to withstand everyday use and flexible enough to bend but not break.

1. iPad® holder, rear seat. 2. Personalised remote control shell. 3. 20" 5-Double Spoke Matt Black/Diamond Cut 4. 21" 7-Open Spoke Matt Tech Black/Diamond Cut.

Create a V90 Cross Country that compliments your life. The sleek iPad® holder allows rear-seat passengers to watch, read or play and has two USB ports for charging devices. The remote control can be personalised to match or contrast your car's interior trim with different exterior casings.

# The simplest way to own a car.

We love it when you're happy – when things are easier, faster or more convenient than you expect. When you buy a Volvo, our aim is to make Volvo ownership an effortless experience, where those aspects of vehicle ownership that take you away from your busy life - financing, insurance, servicing, changing tyres, cleaning – are convenient and hassle-free. That's why your local

Volvo dealer will always offer you a wide range of services designed to exceed your expectations.

And that's just the beginning. We are proud to introduce Volvo Personal Service, a new way to manage workshop operation. There are many Swedish innovations that make things easier for people – easier to furnish

your home, listen to music, communicate with your loved ones, etc.

And when Swedes make cars, they also think of new ways to simplify the ownership experience. Volvo offers a uniquely Swedish approach to servicing, with a focus on innovation and finding new ways to make your life simpler.

- Car wash
- Volvo Roadside Assistance\*\*

## VOLVO PERSONAL SERVICE

Volvo is taking the lead in modernising workshop operation. Our new approach incorporates three innovative ideas, first, employing teams of two to reduce work time, getting your Volvo back on the road within the hour. Second, we invite you to relax in our living room while we work on your car. Finally, you will be assigned your own Personal Service Technician who will provide you direct feedback on their findings. Volvo Personal Service is currently being implemented across our dealer network and will be available at your local dealer soon.

## SMARTCARE

Choose from one of our comprehensive service plans today. Drive easy knowing your Volvo is covered for the initial years of service and maintenance checks. Purchased prior to your car's first scheduled service, our service plans guarantee you a set price for up to five years or 75,000km\*\*\* of scheduled services on your new Volvo.

\*Personal Service Technician and Wait in Living Room at participating VPS dealers only.

\*\*Volvo Roadside Assistance is only available until the vehicle reaches six years of age.

\*\*\*Whichever comes first
