AWD MAKES IT FUN

IN DESIGNING THE IMPREZA, SUBARU REALLY DID THINK OUTSIDE THE BOX. THEY THOUGHT LATERALLY. THEY DREAMED BIG. AND THEN THEY CREATED A SMALL CAR BOASTING SUBARU'S RENOWNED BOXER ENGINE, COUPLED WITH CUTTING-EDGE TECHNOLOGY, FEATURES AND STYLE. DIFFERENT FROM THE GROUND UP, IT'S THE SMALL CAR THAT STANDS OUT FROM THE CROWD.

■ The sleek, aerodynamic shape hints at a small car that's pure fun to drive. Thanks to Subaru's famous All-Wheel Drive system and Boxer engine, the Impreza is both playful and controlled. Drawing on everything that Subaru has learnt since Impreza arrived in Australia, the fourth generation Impreza continues the tradition of delivering a car that's All 4 the Driver™.

■ The sophisticated body design features large headlights, contoured hood, expressive fender arches, stylish hexagonal grille and sporty alloy wheels. The Impreza 2.0i, Impreza 2.0i-L and Impreza 2.0i-S variants are each available in sedan and hatch models.

SPACE TO BOOT

IN THE IMPREZA, SPACE WAS NEVER FAR FROM THE DESIGNER'S THOUGHTS. THEY WENT OVER EVERY INCH TO SEE HOW THE SPACE COULD BEST BE USED. THEY SHAVED, STRETCHED AND ADJUSTED UNTIL THEY HAD A DESIGN THAT WEIGHED LESS - BUT DELIVERED MORE.

MODEL SHOWN: Impreza 2.0i-L Sedan

MODEL SHOWN: Impreza 2.0i-L Hatch

- CENTRE CONSOLE BOX WITH ADJUSTABLE ARMREST.¹
 - 60/40 SPLIT FOLDING REAR SEATS WITH FLAT FOLD FUNCTION.
 - FRONT CENTRE CONSOLE CUP HOLDERS.

1. Impreza 2.0i-L and Impreza 2.0i-S models only.

The wheelbase on both the Impreza hatch and sedan deliver a spacious cabin with generous front and rear leg room and cargo space. The cabin dials up the level of comfort with seats featuring high seatbacks and excellent lumbar and cushion support.

The sophisticated interior is complemented by generous storage, intuitive controls and a quality, soft-touch dash for maximum luxury.

Impreza's boot space is large and practical too. The 60/40 split-folding rear seats fold completely flat for an expansive extended luggage space, while the child restraint anchors in the hatch are located on the rear seat backs so the tether straps do not intrude into the boot cargo area. Boasting the sort of space and clever design features you would normally only expect in a much larger car, the Impreza delivers in spades.

IMPRESZ-IVE PERFORMANCE

THE IMPREZA BOASTS THE TYPE OF PRECISION PERFORMANCE THAT HAS BEEN DECADES IN THE MAKING. IT IS THE CULMINATION OF EVERYTHING THAT SUBARU HAS LEARNT SINCE BUILDING ITS VERY FIRST VEHICLE. IMPREZA COMBINES ALL THE BEST OF SUBARU'S LEGENDARY TECHNOLOGIES INCLUDING VEHICLE DYNAMICS CONTROL, HORIZONTALLY-OPPOSED BOXER ENGINE AND SYMMETRICAL ALL-WHEEL DRIVE.

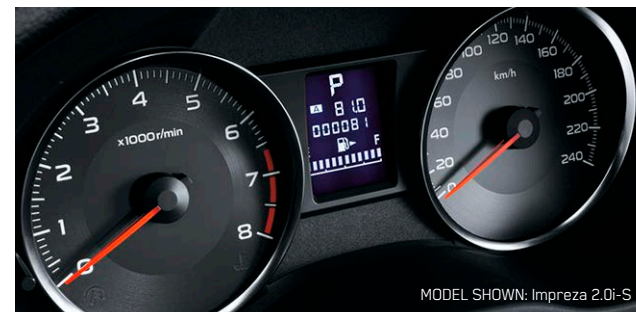

Subaru Impreza's impressive and lively acceleration is delivered from a combination of Subaru's third generation Boxer engine and the compact and lightweight Lineartronic™ CVT (Continuously Variable Transmission). This CVT has been optimised to couple seamlessly with the new Boxer engine and chassis to deliver highly responsive acceleration, excellent drivability and fuel efficiency. The six-speed manual Subaru Impreza transmission also delivers excellent fuel efficiency and smooth shift quality.

Together with the high performance Boxer engine, Subaru's fuel-saving Auto Stop Start technology, takes petrol engine efficiency to

a new level while meeting strict EURO5 emission standards. The Auto Stop Start function contributes to efficiency by saving fuel normally consumed while the engine is idling, while stopped in heavy traffic or at traffic lights. The system works by automatically stopping the engine and then restarting it in a fraction of a second - with no driver intervention needed. In the Impreza 2.0i-L and Impreza 2.0i-S, the actual fuel savings delivered by this system can then be monitored using the Multi-Function Display that shows cumulative travel time, engine stop time and fuel saved.

THINK OUTSIDE THE BOXER

SOLID. BRAVE. PROVEN. SUBARU'S BOXER ENGINE DESIGN LIES AT THE HEART OF THE IMPREZA. HOWEVER THE INNOVATION DOESN'T STOP THERE. EVERY INCH OF THE IMPREZA IS A TRIBUTE TO THE BOLDNESS OF SUBARU'S VISIONARY ENGINEERS.

- Compact 2.0-litre four cylinder DOHC horizontally-opposed Boxer petrol engine with Dual Active Valve Control System (Dual AVCS).
- Electronic Throttle Control (ETC).

Consistent across the Impreza range is the famous Subaru Boxer engine which has been designed to sit lower and flatter in the engine bay than traditional engines. Due to this unique design it delivers less noise and vibration to the cabin, while the low centre of gravity aids stability, cornering and traction with the road. Coupled with Impreza's symmetrical drivetrain, this configuration delivers superior handling confidence, optimum balance, smoothness and ultimately, outstanding driver enjoyment.

The intelligent drive systems incorporated into Impreza include ETC which seamlessly translates commands from the driver's right

foot, to automatically select the optimum throttle position for an effortless performance. The ETC system also considers the environment, optimising exhaust gas emissions and fuel economy.

The Impreza range has also been finely tuned to deliver optimum fuel economy, power and torque, via Subaru's Dual Active Valve Control System. This engine efficiency is enhanced by the Auto Stop Start system which stops the engine 0.5 seconds after the car comes to a standstill and rapidly restarts the engine just 0.35 seconds after the brake pedal is released (CVT), or clutch pedal depressed (MT).

CONFIDENCE UNDER ALL CONDITIONS

The sign of a true performer is good balance. And when it comes to driving a Subaru, superior balance equals superior vehicle control. That's why Subaru has built its reputation on its Symmetrical All-Wheel Drive (SAWD) system and a symmetrical drivetrain that deliver an innate sense of balance from the ground up.

SAWD delivers engine power to all four wheels simultaneously. Having power distributed across all four wheels, rather than two on conventional vehicles, gives you twice the grip capacity. So under acceleration there's more grip for cornering and more capacity to keep on track through the corners. Ultimately, having the driving force spread across all four wheels means greater control and confidence.

The traction and control delivered by SAWD is further enhanced by the Impreza's suspension. The front independent McPherson strut suspension give Impreza sporty handling and stable cornering, while the double wishbone rear suspension delivers superior ride comfort with excellent vehicle stability and confident driving control.

For you, the driver, it all adds up to an agile and responsive vehicle with optimum balance, control and confidence in a variety of driving conditions.

CRUNCH TIME

Because you never know what's around the corner, Subaru have made safety an integral part of every vehicle. By incorporating the very latest safety technology, every vehicle in the Subaru range proudly carries the maximum five-star ANCAP* crashworthiness rating for occupant safety. The ring-shaped passenger cell is made from high-tensile strength steel, which directs impact energy around the passenger compartment, not through it.

Thanks to Subaru's electronic driver assist system, called Vehicle Dynamics Control (VDC), a range of stability and braking technologies step in to help maintain safety in extreme situations. By automatically acting on information transmitted from a sophisticated array of sensors, the factors influencing the Impreza's stability are constantly monitored to help the driver stay in control.

Subaru Vehicle Dynamics Control incorporates:

- Electronic Stability Control (ESC).
- Traction Control System (TCS).
- TCS Limited Slip Device (LSD).
- Anti-lock Braking System (ABS).
- Electronic Brakeforce Distribution (EBD).
- Brake Assist.

Active safety features on the Subaru Impreza are complemented by an optimum blend of passive safety, designed to enhance driver and passenger protection:

- The Boxer engine sits low in the engine bay to help protect occupants by sliding below the cabin - not into it - in the event of a severe frontal collision.
- Ring-shaped passenger safety cell combines rigid reinforced sections with crumple zones designed to absorb impact energy and reduce injury.
- Seven SRS airbags - dual front, dual front side, curtain and driver's knee airbags.
- Front seatbelts feature pretensioners and load limiters.
- Whiplash reducing front seat design.
- Automatic Emergency Locking Retractors on all rear seatbelts.
- Height adjustable headrests throughout the cabin.
- Rear view reverse camera - Impreza 2.0i-L and Impreza 2.0i-S.
